

# IRINA KARADIMOVA

FULL STACK WEB DEVELOPER

## ABOUT ME:

*What is important to know about me?*

*I can say that I'm a versatile person, there is so much more than what meets the eye, or in this case, the jobs I have done in the past. The trait I like most about myself is my constant search for improvement and constant growth mindset.*

*That translates in trying new things, never settle and having fun in the process. Staying in one place in life isn't an option.*

## EXPERIENCE:

### Trainee

#### **Codemaster - Grupo Media Master**

I completed a fullstack web developer course that taught me how to create dynamic and responsive websites using HTML, CSS, JavaScript, PHP, Java and SQL. I applied my knowledge in an internship where I developed and maintained real life web applications, using best practices and industry standards.

### Security officer

#### **Prestibel, 2020-Present**

As a security officer at a clinic, I was responsible for ensuring the safety of the staff, patients and visitors. I performed regular patrols, checked the access control system and responded to any incidents or emergencies. I also collaborated with the clinic management and the local police to prevent and deter any criminal activities or threats. I enjoyed working in a healthcare environment and providing a service to the community. I learned how to handle different situations with professionalism, calmness and respect.

### Airport Security

#### **Prosegur, Lisbon, 2015-2020**

As an airport security officer, I perform various tasks to ensure the safety and security of the passengers and staff. Some of my duties include:

- Control access to restricted areas by checking IDs, badges, and boarding passes.
- Provide customer service by answering questions, giving directions, and assisting travelers with special needs.
- Operate and monitor X-ray equipment to scan luggage and personal items for prohibited or dangerous items.
- Perform administrative tasks such as writing reports, maintaining records, and updating databases.

## EDUCATION:

---

March 2023 - November 2023

### **CodeMaster**

Full Stack Web Developer

2004-2007

### **Esc.Sup.Agrária Santarém**

Food Engeneering

## SKILLS:

---

Some of the skills I developed as a fullstack web developer are:

- **HTML:** creating and structuring web pages
- **CSS:** styling and formatting web pages
- **JavaScript:** adding interactivity and functionality to web pages
- **PHP:** writing server-side scripts and web applications
- **Java:** developing cross-platform applications and web services
- **SQL:** managing and querying databases
- **Bootstrap:** using a framework for responsive web design

## EXPERIENCE:

---

### **Archive clerk**

**Millennium BCP Bank, 2009-2010**

As an archive clerk at a bank, I was responsible for converting and storing all the documents that the bank generates every day. I use specialized software and equipment to scan, index and organize the paperwork in a secure digital format. I also ensure that the physical copies are properly filed and archived according to the bank's policies and regulations.

## HOBBIES:

---

- **Reading.** I enjoy reading books on various topics and expanding my knowledge. This year, I have read about 15 books so far.
- **DIY Projects.** I like to learn how things are made and create them from scratch. I find it satisfying and rewarding to make something with my own hands.
- **Gaming.** I like to play video games and immerse myself in different worlds. I also appreciate the stories, characters and graphics of the games.
- **Programming.** As a freelancer, I like to explore and learn new skills every day. I enjoy coding and solving problems with technology.
